Henry Schein to Distribute RGP Stools!

For Immediate Release:

Contact: David Solomon, RGP Dental
Tel: (800) 522-9695
Fax: (401) 254-0157

RGP Selects Henry Schein Inc. as Distributor

The SSS-321 is available through Henry Schein. The SSS-321 incorporates a full-functioning mechanism and intuitive features. The stool is designed to provide ergonomic support to the lower back while 'cradling' the practitioner's upper-back, shoulders and arms.

The mechanism's adjustment lever allows individual tilt of the seat/back. A separate handle allows height adjustment.

Force exerted during dentistry is exponential increased when the arm is elevated higher than 30° from the body's trunk. Both support arms; RGP's 2-D Relax and 3-D Hydro allow unobstructed movement while maintaining the arm within the 30° 'caution-zone'.

For information, contact your Henry Schein representative at 1.800.372.4346.
